

EVERPURE® MICROGUARD HF POST-FILTER

PART NO. PWMG13

Microguard HF Post-Filter
Part no. PWMG13

APPLICATIONS

Small capacity water coolers and drinking fountains.

Use as a post-filter at or near dispense tap.

For use with still drinking water up to 40°C.

OPERATION TIPS

Change cartridges on a regular 6 month preventative maintenance program or when flow rate drops significantly.

Always use prefiltration to maximise membrane life.

On installation, flush filter at full flow for 2 minutes.

FEATURES • BENEFITS

3-inch capillary membrane inline filter with micro-filtration (MF) membranes.

MF reduces 99.9999% of bacteria such as Pseudomonas, cysts such as Cryptosporidium and Giardia as well as asbestos fibres.

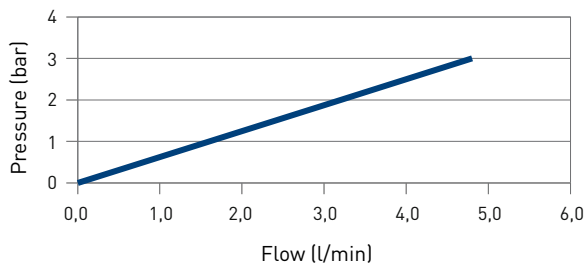

SIZING

Flow rate: 3,2 L/min @ 2 bar

Service life: Depends on local water conditions and level of pre-filtration. European guidelines recommend exchange of cartridge after 6 months.

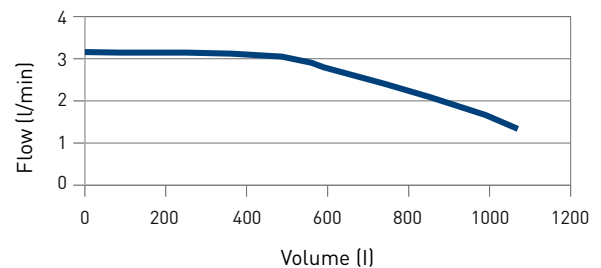

Flow - Pressure characteristics

14°C - SDI 28

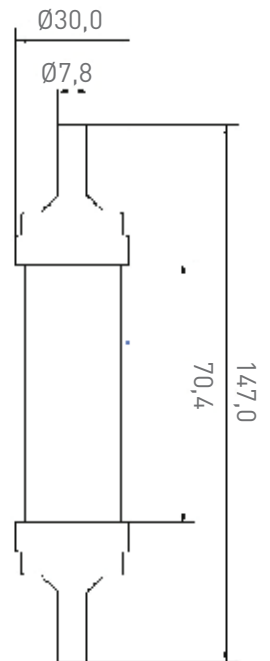

Service life

14°C - SDI 28 - 2 bar

SPECIFICATIONS

Membrane tupe:	Micro-filtration membranes; asymmetric, hydrophilic capillaries
Membrane material:	PES/PVP
Max. pore size:	0,15µm absolute
Membrane surface:	Approx. 280cm ²
Retention:	Proven >99,9999% (>log 6) of bacteria and cysts according to; ASTM F838-05
Material:	Housing and connectors: PS Swivel and filter tube: PVC Potting: 2K epoxy resin
Max. pressure:	6 bar (88 psi)
Max. temp:	40°C (140°F)
Cartridge size:	33 x 210 mm (OD x Length)
Cartridge:	Cartridge tested for integrity according to ASTM D6908-03.
Weight:	28g
